

Hydraulic Pumps

Mk12 Morpress Air Operated Hydraulic Pump

The Mk12 Morpress air operated portable hydraulic power pack offers a safe and robust design with four performance options to select from delivering hydraulic pressure up to 3,500 Bar (50,000 psi) and a maximum flow of 1065 cm³

FRAME

- *Corrosion resistant stainless steel frame
- * Lightweight and easy to handle
- *Pinch point free design

GAUGE

- *Glycerine filled for accuracy
- *Pressure markers to aid operator
- *Angled for good vision while operating
- *Bar or psi standard (other units optional)
- * Protective cage (optional)

FITTINGS

- * Corrosion resistant

RESERVOIR

- *5 or 8 Ltr option

PUMP

- * High quality SC Pump range
- * From 1700 to 3500 bar

OUTLET

- * Single or Twin

NEW AND IMPROVED

Specification

- | | |
|--------------------------|--|
| ◆ Air pressure regulator | ◆ Oil reservoir |
| ◆ Air pressure gauge | ◆ Air/Oil intensifier unit |
| ◆ Air filter | ◆ Oil return to tank valve |
| ◆ Air lubricator | ◆ Pressure relief safety valve |
| ◆ On/off control valve | ◆ Oil filled pressure gauge with damping |
